Removable

Outer dimensions

w. 69 – d. 63 – h. 66 cm / w. 27^{1/8}” – d. 24^{7/8}” – h. 26”

Seat: h. 39cm / 15^{3/8}” from floor

Use and maintenance

The product is designed for domestic use; never jump on structural parts. Avoid doing maintenance on components of products yourself, contacting your retailer with regard to any problem that may arise. Everyday use results in some compression of the padded parts during standard product life-span. Any odours given off by the product when unpacked are not toxic and disappear in an aired room.

When the product must be moved, pick it up off the floor to avoid damaging parts that rest on the floor.

Maintenance - Covers

See information sheet (in the download section on the web site www.molteni.it).

To remove the cover, remove the seat from the structure by unscrewing the connections at the bottom of the chair.

Maintenance - Wooden components

These parts should be cleaned using white spirit diluted with water and dried immediately with a soft cloth.

This must be done carefully to avoid scratching the surface. Exposure to direct sunlight may alter the colour of the wood. Avoid products containing acetone, ammonia, chlorine, solvents, abrasive products and furniture wax.

Disposal

Once discarded, neither the product nor its components should be dumped in unauthorised areas, but taken to official waste disposal sites.
