L 32^{1/4}" – P 61^{7/8}" – H 34^{5/8}"

Headrest cushion for chaise longue

Footrest cushion for chaise longue

Use and maintenance

The product was designed for domestic use; do not stand on the chair or armchair; the chair must have all four feet resting on the floor. Avoid doing maintenance on components of products yourself, contacting your retailer with regard to any problem that may arise. Everyday use results in some compression of the padded parts during standard product life. Any odours given off by the product when unpacked does are not toxic and disappear when exposed to an aired environment. When the product must be moved, keep it up off the floor to avoid damage to parts that rest on the floor.

Maintenance - Covers

See covers information sheet (in the download section on the web site www.molteni.it).

Disposal

Once discarded, neither the product nor its components should be abandoned in unauthorised areas but taken to a municipal dump.
