w. 87 – d. 71 – h. 78 cm / w. 34<sup>1/4</sup>” – d. 28” – h. 30<sup>3/4</sup>”

**Armrest:** h. 60cm / 23<sup>5/8</sup>” from floor

**Seat:** h. 39cm / 15<sup>3/8</sup>” from floor

## Use and maintenance

The product was designed for domestic use; do not stand on the armchair; never stand on structural parts; do not sit on the chair arms. Avoid doing maintenance on components of products yourself, contacting your retailer with regard to any problem that may arise. Everyday use results in some compression of the padded parts during standard product life-span. The presence of any odours given off by the product when unpacked are not toxic and disappear when exposed to aired surroundings. When the product must be moved, keep it up off the floor to avoid damage to parts that rest on the floor.

### Maintenance - Covers

See covers information sheet (in the download section on the web site [www.molteni.it](http://www.molteni.it)).

To remove armchair cover you must separate the back from the seat. This, and the subsequent re-assembly, must be done by a skilled person to avoid damaging the product.

### Base care

For ordinary care, use a soft, dry cloth to remove dust. For greasy dirt (fingerprints), we recommend the use of standard glass-cleaning detergents containing ammonia. Once a month, treat the surfaces with metal cleaner/polish. Avoid products containing solvents and/or spirits and cloths with hard fibres (synthetic/linen) as they could ruin and/or scratch the surfaces.

### Disposal

Once discarded, neither the product nor its components should be abandoned in unauthorised areas.
