## Use and maintenance

The product was designed for domestic use; do not stand on the armchair; never stand on structural parts; do not sit on the chair arms. Avoid doing maintenance on components of products yourself, contacting your retailer with regard to any problem that may arise. Everyday use results in some compression of the padded parts during standard product life-span. Any odours given off by the product when unpacked are not toxic and disappear when exposed to aired surroundings. When the product must be moved, keep it up off the floor to avoid damage to parts that rest on the floor.

### Maintenance - Covers

See covers information sheet (in the download section on the web site [www.molteni.it](http://www.molteni.it)).

### Disposal

Once discarded, neither the product nor its components should be abandoned in unauthorised areas.
