

An elegant chair with casual, classical lines and a steel section structure covered with flexible polyurethane foam. The seat is reversible with a shaped, central polyurethane insert. Available in all fabric/leather types. Chrome steel base.

Available finishes

fabric, leather

Materiali

Internal structure

Metal frame with elastic straps.

Structure padding

Flexible polyurethane foam.

Cushion

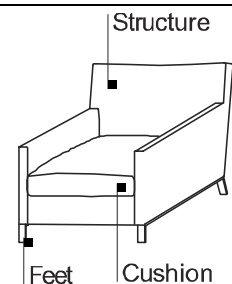

Matching light velvet cover.

Feet

Shiny chrome steel with plastic non-slip caps.

Outer covers

Removable

Outer dimensions

L 76 – P 83 – H 80 cm / L 29^{7/8}” – P 32^{3/4}” – H 31^{1/2}”

Arms: H 55cm / 21^{5/8}” above floor

Seat: H 43cm / 16^{7/8}” above floor

Use and maintenance

The product was designed for domestic use; never stand on structural parts. Avoid doing maintenance on components of products yourself, contacting your retailer with regard to any problem that may arise. Everyday use results in some compression of the padded parts during standard product life-span. Any odours given off by the product when unpacked are not toxic and disappear when in an aired room.

When the product must be moved, keep it off the floor to avoid damage to parts that rest on the floor.

Maintenance - Covers

See covers information sheet (in the download section on the web site www.molteni.it).

Chrome foot care

For ordinary care, use a soft, dry cloth to remove dust. For greasy dirt (fingerprints), we recommend the use of standard glass-cleaning detergents containing ammonia. Once a month, treat the surfaces with metal cleaner/polish. Avoid products containing solvents and/or spirits and cloths with hard fibres (synthetic/linen) as they could ruin and/or scratch the surfaces.

Weekly upholstery care

Beat and fluff up the cushion manually and regularly invert the seat side (reversible cushions). By fluffing up, we mean shake the cushion on all sides (top, bottom, sides). We recommend this be done after removing the cushion from the structure for improved air circulation.

Monthly upholstery care

Remove cushion covers and fluff up as described above. After doing this, leave the upholstered parts to air –in the open if possible– for 30 minutes before replacing the covers.

Disposal

Once discarded, neither the product nor its components should be abandoned in unauthorised areas, but taken to a municipal dump.
